BUTLER VS. SIMMONS.

THEY MEET IN JOINT DISCUSSION AT JORDAN'S STORE, WAYNE COUNTY.

LET EVERY VOTER READ THE FACTS ON BOTH SIDES AND DECIDE ACCORDINGLY.

A Joint Discussion Between the Chairman of the People's Party Committee and the Ex-Chairman of the Democratic Committee.---A Large crowd Heard Them.---Three-Fourths of that Audience will Vote the People's Party Ticket.---Read the Following and You will See Why.---A Great Victory for the People's Party.

Continued from last week.

MR. SIMMON'S REPLY.

Mr. Simmons in his rejoinder said: I am at a disadvantage here today. Mr. Butler has not toated fair with me. He invited me down here in a People's party stronghold among his friends. I see there are not many of you here in sympathy with me to-day; but it is not so everywhere. The People's party only exists about in pockets and spots, and this is one of their pockets. Mr. Butler dealt more in ridicule and sarcasm than he did in argument. You applauded him, but do you know that he appealed more to your worser natures than he did to your better nature? Mr. Butler denounced the present election law, but let me tell you, the same election law was on the statute books in 1891 when he went to the Senate. Did he offer a bill then to repeal or to amend this law? If it is as bad as he says it is then certainly he would have done so, or now should not condem it.

MR. BUTLER THE BOSS.

Mr. Butler in his paper and in his speeches talks about bosses and ring rule, but of all the bosses that I have ever seen he is the greatest. He orders you to go, and you go. He orders you to do and you do. He has got you by the nose and he makes you follow him around. At the State convention of the People's party he had everything cut and dried; he poped his lash and made you put everything through just as he wanted it. This is machine methods with a vengeance. Even to-day when he shakes those black locks of his at you, everyone of you cheer him, and laugh, and you don't know what you are laughing about. The People's party reminds me of a certain pond that a man thought was full of frogs. He went to a merchant and asked him if he did not want to buy a wagon load of bull frogs. The merchant agreed to take them, the next day the man came up with only four little frogs in his wagon; the merchant asked him if they were samples. The man said no, that he drawed off that pond of water and these were all the frogs he found; but judging from the noise they made he thought there was a wagon load of them.

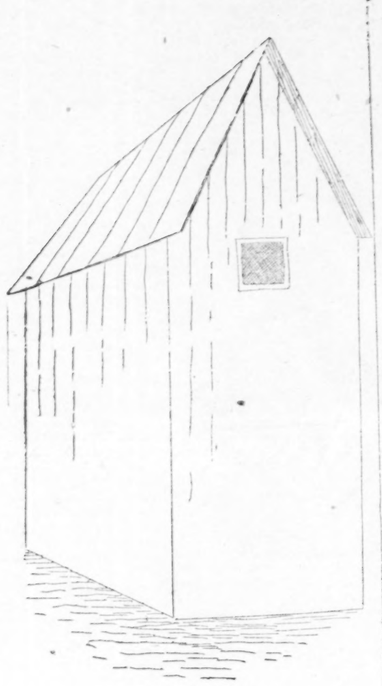
Mr. Butler had a great deal to say about the price of cotton being low; but he said in his paper last year that the price of cotton was regulated in Liverpool. My friends he even defends the McKinly bill. Mr. Butler also had a great deal to say about the Democratic tariff bill being a sham and a fraud, but I want to ask him if this is so, why some of the People's party men voted for it?

FUSION.

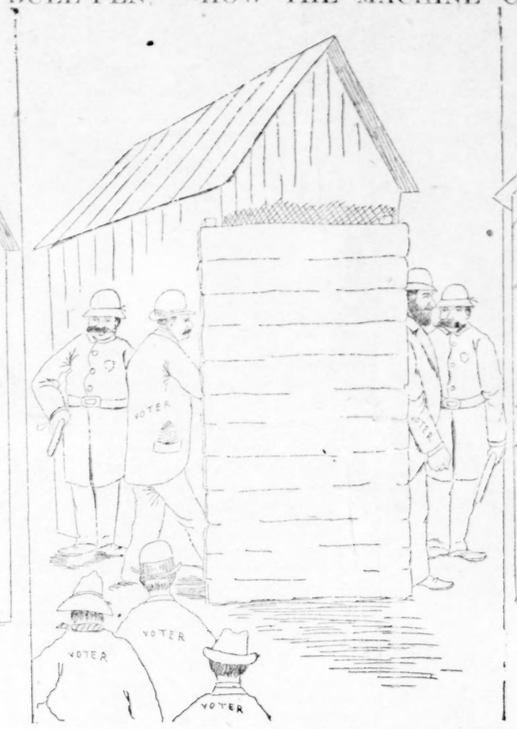
I want to say something about fusion in North Carolina. Here the People's party that claim to be in favor of reform has joined with the Republican party for the sake of dividing out the offices. This is an unholy alliance. The people remember the dark rule of the radical party in this State, when they were paying 82 cents taxes on the $100 worth of property; now they only have to pay 66 2-3 under Democratic rule. They claim that they want an honest election, but everybody knows that we have fair and honest elections here in North Carolina. Besides they claim that they want a non-partisan Judiciary. My friends we have got the best Supreme Court in this State we have ever had. The Courts are fair and just and everybody is treated right by them. I want to say a word or too about Mr. Butler personally, if he has got any political principles they have been born within the last 48 hours. Two years ago before the Democratic state convention met he was advising you all to stay in the Democratic party in North Carolina. He told you that your quarrel was not so much with the State Government as it was with the National Government. But no sooner had Elias Carr, the President of the Alliance, been nominated for Governor than he turned his back on him, and called on you all to go with him and formed a third party and you went with him (a voice in the audience "I was not with him then but I am now). Now he has called on you all to go with him and join the Republican party. He is simply after office himself, and if you follow him there is no telling where he will lead you. The People's party is deserting all of its principles any how. It has deserted Sub-Treasury, it has deserted Government ownership of railroads, and now it has about quit everything but hurraning for non-partisan Judiclary and for honest elections, and I don't know what step they will take next."

Mr. Simmons had talked two minutes over his time up to this point before Mr. Butler called him down. There was only a feeble hand-slap from half a dozen or more men for Mr. Simmons when he finished. When he got off the rostrum his few followers gathered around him, and they get off to one side while the large crowd which had somewhat scattered while Mr. Simmons was speaking, rally around the stand eager to hear Mr. Butler's close.

THE DEMOCRATIC "BULL PEN."—HOW THE MACHINE COUNTS MAJORITIES.



This represents "Bull pen" before ruling (?) or wall is put up. See the little square hole that the ballots are to be stuck in at.



This shows the outside of "Bull pen" on the day of election. The wall has been put up close to the "Bull pen," so that only one voter can squeeze through at a time. He does not know what he comes of his ballot after he hands it in.

This shows the inside of "Bull pen" from the back end. These two colored men have been appointed poll holders by the Commissioners, either because they could not read or because they were "Democratic niggers." See the vote stealer taking a Peoples Party vote in at the window with one hand, while he takes a Democratic vote from his side pocket. The Democratic vote goes into the box

MR. BUTLER'S REJOINDER.

Fellow citizens Mr. Simmons charges that in my reply to his first speech that I did not answer a single one of his arguments. Let any man in this audience, Democrat, Populist, Republican, white or black, name a single argument that he made that I did not reply to. I challenge Mr. Simmons before this audience to name a single argument that he made that I did not answer, and answer fully. There is but one thing that he said that I did not reply to, and you all know that I was about to do that when time was called on me. I will answer that now. You know that he charges that there had been nothing but turmoil and confusion in those States where the People's party was in power. He come mighty near telling the truth when he said that. Yes, my friends there has been lots of trouble and bad blood in those States. Why? Because the State House rings, the broken down aristocracy and the tools of corporation had been ruling the people for a quarter of a century. At last the people rose up in their might and revolted against the machine. They had tried to do it a number of times in the past inside of their old party lines, but every time they had failed.

WHY THERE IS BAD BLOOD.

At last they realize that the only way to crush the old machine was to start a new party, to raise a pure flag of "equal rights to all and special privileges to none." To appeal to the great masses of the people to flock under that flag and to march against the citadel of bossism, rule machine and corruption and to drive out of power the enemy of the people. This has already been accomplished in a number of States. In every State as soon as it was accomplished the machine element of these old parties began at once to work up bad blood. They began to throw obstructions in the way of the people's government. They did everything they could to give the officers of the law trouble, and in Kansas and Colorado they actually defied the law and the authorities of the law. They became anarchists and traitors against their own government, and revolted against the rule of the majority. My friends this is what has caused all the trouble that you have heard about in South Carolina, in Kansas, in Colorado, in Oregon, and in every other State where the people rule; and it will be so here in North Carolina. On the 6th day of November the people will take charge of the State legislation. Two years from now they will elect a People's party Governor and drive out of power everyone of the old State House ring. When this time comes we are going to have the very same trouble in North Carolina that our friends have had in other States where the People's party got in power. When this time comes, Simmons and Matt Ransom and all that crowd will, instead of quietly and peacefully submitting to the will of the people, begin to stir up bad blood. Everyone of their machine organs in the State will begin to attack the People's party State government. We even expect to see them defy the authority of the State, and refuse to obey the law. We expect to see it become necessary for a People's party Governor to order out the militia to force these goldbugs and anarchists to obey the law. I hope that it will not be so, but unless the machine is better in this State than in other States, you may prepare yourselves to see it. And I serve notice on the machine now, that the people are going to rule it in the interest of the great masses of the people, and if nothing but the bayonet will make these anarchists submit, then the people will teach them a lesson.

THE RECORD OF OUR CONGRESSMEN AND SENATORS.

He told you that the People's party Senators and Congressmen had tried to bankrupt this Government. He told you that they had introduced bills in Congress calling for appropriations amounting to $35,000,000,000. He said that this was more than three times as much money as there was in the world.

Now my fellow citizens what are the facts? I am astonished at Mr. Simmons, or any other intelligent man who makes any claim to fairness and to truth to stand up here before you and make such a statement. He did it to try to make you think that the People's party men were incompetent of governing. The facts, fellow citizens, are that not a single one of these bills called for a single extra cent of appropriations; not a single one of these bills would have increased your taxes a dollar: but if some of these bills had passed they would have increased the circulating medium of the country. They would have put idle men to work. They would have given a new impetus to every enterprise in the country, increased the price of cotton, and made times better. Every one of these bill, as I have said before, provided not for taxing you, but provided for making more money and issuing it to the people at a safe and reasonable quantity.

But my friends remember that these bills did'nt provide for making $35,000,000,000 of money, but every one of them contained a clause saying, that whenever the amount of money in circulation reached $50.00 per capita, that the bill should no longer be operative, and that no more money should be issued until population and business increased. Mr. Simmons is that not so? (No answer.) My friends that is the gospel truth, and Mr. Simmons knows it. Now is there a single man in this audience who is opposed to those bills passing? (Not a single one answered.) Yes you all want bills like that to pass. Every Democrat wants bills like that to pass, and they would have passed, had you not had a Democratic Congress sitting there to kill them, and to kill every other bill that would increase the currency or give the people relief.

THE DEMOCRATIC RECORD CONTRASTED.

There were about twenty of the People's party bills that Mr. Simmons referred to; everyone was introduced for the same purpose, and therefore if one of these bills had passed, the People's party members would not have asked for the others to have passed. But if Mr. Simmons wants to try to ridicule the People's party bills because they amounted to $35,000,000,000, let us see how the Democratic record stands. Senator Palmer, of Illinois, a Democrat, on April 17th, 1894, introduced in the Senate of the United States a bill, and here I hold it in my hands, Senate bill 1917. Here it is fellow citizens, and what does this bill call for? It calls for an appropriation of $38,000,000,000. One bill that calls for $3,000,000,000 more than all the People's party bills put together. Here it is Mr. Simmons, would you like to see it? Do you deny it? (No answer.) No you can't deny it. Besides that my friends I can name seven bills introduced by Democrats in Congress that called for a total appropriation of $101,738,034,455. This is more than three times as much as all the People's party bills put together. Mr. Simmons would you like to see these bills? Here they are. Now fellow citizens if Mr. Simmons had a chance to reply to me, he would say that some of these bills were introduced by request. I say this for him because I know what he would say. But some of the People's party bills were introduced by request, but Mr. Simmons would not tell you this when he was making his first speech. But I want to be perfectly fare with you, so I will tell you the truth on both sides.

PEFFER'S LAND TAX BILL.

He also told you that Senator Peffer had introduced a bill to put all taxes on land. And then he tried to grow eloquent, telling you how this bill would increase your burdens of taxation. He told you that this bill would put all the taxes of the country on your poor farmers, and that you would have to pay at least twice as much taxes then as you do now. Fellow citizens, Mr. Simmons may be ignorant of the truth about this matter. I hope he is, and if so, I will inform him what the facts are.

Senator Peffer never introduced a bill anything like the one that Mr. Simmons charges that he introduced, but he did offer a resolution looking towards the equalization of taxation and in that he offered among other remedies that if all personal property could not be taxed justly, that then all taxes should be placed on real estate in proportion to its market value. Now let us see if somebody else besides Mr. Peffer does not approve this. I hold in my hand a report of the Committee on Agriculture in Congress. It is dated February 15th, 1894. Let us turn to page 101 and read. Listen Mr. Simmons, it is as follows:

"And if it be found that a just system of personal property taxation cannot be enforced, let it be abandoned; abolish all personal taxation and place taxes on land exclusive of improvements, so that a 25-foot lot in a city that is worth, for merchandising or manufacturing, $100,000 shall be taxed at one hundred times as much as a farm that, without its improvements, is worth only 1 000 dollars."

The above are the exact words of the Committee. Why did the Committee make this recommendation? Because a sub-committee had been appointed to investigate the subject of taxation, and that committee found that the wealthy men of the country were not paying taxes on their personal property, while the poor were paying on everything, down to an old pitchfork, cart or plow. The committee found that the Jay Gould's estate with personal property amounting to $25,000,000, was paying taxes on less than one half of a million. The committee said that these things should be remedied, and said that if it could not be done in any other way, that it would be better to put all taxes on real estate which could not be hidden. Mr. Peffer's resolutions was along this same line, and if his resolutions had been framed into a bill and passed instead of your having to pay more taxes on your poor farms than you pay now, you would have to pay less. Why? Because that bill required that the high price of dirt in big cities should pay a very large part of the taxes. If a bill of that kind was passed, one block in the city of New York would pay more taxes to support the government than every farm in North Carolina put together. Besides if you had such a law the men who own lots in the cities would then begin to pay their fair share of the taxes, and when this is the case you will find the men in the cities demanding economy in our government just as the farmers are now doing.

MR. SIMMONS CALLS FOR CALF ROPE.

Now let us look at what Mr. Simmons said in his reply, he said that the People's party existed only in pockets. I don't know what he meant by that, but if it is so, then let us tell him those pockets are mighty thick in North Carolina, and they are getting bigger every day.

He said I invited him down here among my friends and tried to take the advantage of him. I call upon any of his Democratic friends here to-day to say whether or not that is so; this was my appointment, I expected no one here to reply to me. The Democrats in this neighborhood asked my friends if I would agree to a division of time. They invited Mr Simmons to come, and I am glad he is here, but I did not challenge him, but he or his friends challenged me. These are the facts.

WHY THE ELECTION LAW WAS NOT REPEALED IN 1891.

He said that I made a great fuss about the present election law, but if there was anything wrong in it, that I ought to have offered a bill when I was in the Legislature to repeal or amend it. I will tell you all why I did not do it. I went to the Legislature of 1891 and pledged to pass a railroad commission, and to force every railroad corporation in the State to pay taxes just as every common citizen did. Fellow citizens, this is what I promised you to do. Did'nt I do exactly what I promised you to do? (Several voices in the audience, "yes, yes.") Now I will tell you why I did not offer a bill to amend or repeal the election law, because that man (pointing to Mr. Simmons) had not at that time been chairman of the Democratic State Executive Committee. If he had and we had had the same frauds committed that were committed in the last election, then I tell you that I would have let railroad commission and everything else alone and would have fought day and night until that election law and the infamous election machines, was wiped, every vestage of it, from the statute books of North Carolina.

There is not a word in the election law that we have that says that a man shall steal. There is not a word in it that tells the registrar that he shall help Democrats to register but shall use his position to try to keep every other man from registering right. There is not a word in that election law that says that the county commissioners shall appoint ignorant and incompetent men to act as judges of election for the opposing party. There is not a word in that election law that says they shall appoint men who can't read and write. There is not a word in that election law which says that the poll holders shall stuff ballot boxes. There is not a word in that election law that says they shall make out and swear to false returns. There is not a word in that election law that says they shall build "bull-pens" and shut out God's sunlight and hold the election in dark corners by lamp light. There is not a word in that election law that says that the county canvassing board shall throw out enough precincts to give the Democrats a majority.

No gentlemen, the election law does not require any of these things to be done; and no honest man thought these things could be done under the present election law until Mr. Simmons took hold of the election machine and put his cunning and ingenuity to work to defraud the voters of North Carolina. The law reads fair, it does not command any body to do anything that is unfair. The trouble with this law is not what it says, but what it does not say. It leaves loop holes and gaps so that dishonest men may use it to defraud the electors of the State, and can't be punished.

THE PEOPLE'S PARTY HAS NOT DESERTED ANY OF ITS PRINCIPLES.

He charges that the People's party had deserted the Sub-Treasury and the Government ownership of railroads. Every People's party man in this audience knows that is not so. But I am not going to be side tracted now by discussing them when I have barely enough time to answer statements that he made that will effect votes in this campaign. I will meet him or any other man at any time or place and discuss these great questions.

MR. BUTLER'S RECORD

He said that I had no political principles unless they had been born in the last 48 hours. I can prove by this audience that that is not so. Fellow citizens you have been reading my paper, and haven't you been hearing me speak for the last three or four years, and don't I to-day stand on the same principles and advocate them, that I stood for and advocated two years ago, and three years ago? (Voices in the audience, "yes! yes!") Fellow citizens I stand by my principles and let parties go the way they will. And it shall always be the proudest boast of my life that I will not sacrifice my principles to follow any party. I can change my party just as often as that party changes their principles.

Mr. Simmons charges that I deserted Gov. Carr as soon as I got him nominated for Governor. Now what are the facts? I want to tell it right here to Mr. Simmons' face. As soon as Grover Cleveland was nominated for President, I called upon Mr. Simmons, who was chairman of the State Executive Committee, and told him that the Alliance men of North Carolina could not, and would not vote for that mammoth goldbug for President. I told him that I did not believe there was a single true Allianceman in the State that would do it, and that I for one would not. I told him that I wanted his committee to make a ruling, that no man should be questioned for refusing to vote for Mr. Cleveland for President. He asked me who I intended to vote for. I told him for James B. Weaver. He told me that no man could be recognized as a Democrat who did not support the whole ticket from top to bottom. But I told him that a number of our people had gone into the Democratic prisnaries and would stay with the Democratic party and vote the State ticket this year at least, provided we would not be debarred from entering county conventions and expressing our choice there for the legislature, etc. Mr. Simmons told me positively that this would not be allowed. Fellow citizens what did I do then? I went to my home in Sampson county, I called a mass meeting of Allianceмen and told them what was the ruling of the State Committee, and declared to them, then and there, that I was ready to leave the Democratic party to form a new party and to fight the old machine from top to bottom; and that mass meeting of citizens unanimously endorsed my position, and then and there organized the People's party in Sampson county. This is my course fellow citizens and I have no apology to make for it. (Voices in the crowd, "you did right, we will stand by you.")

A BASE INSULT.

Mr. Simmons offered an insult to every self-respecting man in this audience, and I am here to resent it. He knew that he was unable to answer my arguments and was smarting under the lash that I had laid on his back. He said that everyone of you were following me blindly like sheep, and that when I shook my long black locks at you that you cheered and laughed and did not know what you were laughing about. Mr. Simmons I don't bel eve that you intended to say this. You must have been mad and lost your temper. I hope that you are sorry for it now, but you haven't said so, therefore it is my duty to denounce that statement of yours as a base and cowardly insult to as good people as live on God's green earth. I hurl the insult back in your teeth, and do it with the approval of every fair-minded citizen in this audience. (Applause.)

WHY WE CO-OPERATED.

Mr. Simmons seems to be very much afraid that the People's party will sacrafice its principles by co-operating "with that terribly wicked and corrupt Republican party." When Mr. Simmons gets into a section where the Republicans are strong, he changes his tune. He tells the Republicans that he is surprised at them "to be fusing with these hayseeders and cranks." He tells them that they belong to "one of the grand old parties" of this country and that they ought to be above having anything to do with "this dangerous Third party."

Now what a pretty set of fools we all would be if we were to stop thinking for ourselves and take Mr. Simmons advice. Of course he would advise each side to do the very thing that would make it possible for the Democratic machine to continue to cheat and stay in power and draw the salaries.

The People's party laid down and set

CONFIDENTIAL COMMUNICATION

FOR DEMOCRATS ONLY. AN ALLEGED SECRET ADDRESS SAID TO HAVE EMANATED FROM MACHINE HEADQUARTERS.

STARTLING ASPECTS OF THE DEMOCRATIC SITUATION IN THE STATE.

A Graphic Historical Resume of Democratic Achievements Since 1871.--Fou's Masterly Campaign of Harmony and Compromise.--The Simmons Method Invoked and Democratic Officials Objured to Vigilance and Admonished of What the Crisis Demands at Their Hands.

The following is an alleged secret address sent out by Chairman Pou.

We give it in full as follows:

TO DEMOCRATIC VOTERS:

When, in 1871, by fraud and intimidation, we secured control of the State legislature, the State was in a deplorable condition of affairs incident to the close of the war. Aliens were in control, they had come among us from the north and the west uninvited. Many of them were with Sherman and remained in the State as our guests after the termination of hostilities. They soon become offieious and offensive in their determination to introduce northern civilization and educate our people to the changed condition of things. We proudly rejected the overtures from congress looking to the acceptance of the 14th and 15th amendments securing a peaceful and permanent re-habitation of State authority. This had naturally, as we anticipated, to repressive and extreme measures. Our people were incensed and in their resentment scrupled at no expedient to secure control of the Legislature. The existence of the Union League justified the organization of the Ku Klux. The tenor that followed resulted in the Democratic Legislature in 1871. Immediately upon the meeting of the General Assembly, the taxed rate was reduced within constitutional limitations. It has been lowered and raised since that time as suited campaign year exigencies. In 1887 when the Republicans almost regained control of the Legislature the tax rate was reduced to 20 cents. In the succeeding Legislature the rate was restored to 25 cents in order that the State might not suffer disparagement and the reproach of niggardly economy. The rate for 1894 is 22 cents and recognising the desperate financial situation growing out of the repeal of the Sherman law the emergency may warrant a return to Republican frugality.

While Senator Ransom at the head of the Democratic party in the State—our acknowledged and beloved boss—voted to repeal that law by which one-half of our currency was destroyed resulting in ruinous contraction and starvation prices for every product of the soil we solemnly assure the people that when congress convenes in December, we will use all possible means to retrieve the mistake. Its accomplishment may not be possible owing to the hostile attitude of the administration. The Democratic party in North Carolina is not in accord with President Cleveland's financial policy. We believe that silver ought to be restored to where it was in 1837, but we cannot afford to jeopardise Democratic success by openly antagonizing the administration. In the interest of harmony these differences which are only matters of detail must be compromised. In regard to the tariff, we are not in a position to dispute the Presidents delaration that the tariff bill as it passed the Senate "was a measure of party perfidity and dishonor" nor can we accept the condemnation of our Senators and Representatives who voted for the bill without protest. We therefore urge Democratic voters to address themselves to the important question of State administration, that is now one chief concern. The recurrence of carpet bag domination in the State has been made impossible by constitutional inhibition. The checks and balances against extravagant and wasteful legislation are so well adjusted as to prevent a repetition of what occurred in the dark days of 68-69 and 70. We secured control of the State Constitutional Convention in 1876 by a partisan decision of the committee on elections. The proceeding was severely denounced at the time, but nearly two decades have since passed, and the incident has passed into oblivion. The amendments to the Constitution adopted by the convention were not fully understood at the time, but they resulted as intended by the Democratic managers in the establishment of the present system of county government. This system as now administered by county commissioners is indispensable to Democratic ascendency in the State. It controls the entire election machinery in the State. The transcendent importance of maintaining this system is therefore obvious to all Democratic voters. It is undemocratic in that it takes the control of local matters out of the hands of the people, but the salvation of the Democratic party is dependent upon its permanent establishment. Change the methods of electing your county commissioners, and immediately follows the change in the management of elections. The Republicans and Populists would almost certainly retaliate should they obtain control by refusing to appoint Democratic poll holders and by other arbitrary and unfair methods in obtaining the results. This is our supreme danger.

At all hazards the existing election system must be maintained. We felicitate the party that no Democratic State official has been charged with malfeasence or has subjected the organization to reproach by jeciation or improper conduct. The annual appropriations for charitable purposes have been honestly expended. The public school fund has been sacredly disbursed. The tax goes now pay over $1000,00 in poll and general property tax and we confidently expect by 1896 that the race will become self-supporting. We look anxiously to the time when it will be safe to give the negroes some representation in the Legislature and Congress. Taxation without representation is unjust, undemocratic and unconstitutional, but to allow the negro to vote and count the vote as it was cast would imperil the State and cost us our dearly bought civilization. The time is not propitious for a radical change in the existing Democratic methods in conducting elections. Public sentiment demands honest elections but the attempt now to impress that id a upon Democratic election officials would be fatal to Democratic success in November. At this time the Democratic party is confronted by a bold and determined political organization of superior numbers. The Republican vote in 1888 was 134,784. The Populist vote in 1892 was 47,840—a total combine vote of 182 624

The Democratic vote in 1888 was 147,902—a difference of 34,522 in favor of the opposition. The Republican vote of 1888 was reduced to 100,000 in 1892 through the efforts of my distinguished predecessor Mr. Simmons. The method employed by him as appears in the confidential

DISMAL MELONCHOLY DAY AT DEMOCRATIC HEADQUARTERS.

The New York Situation Causes a Panic Among Democratic Leaders in Washington. It gets Worse and Worse Until Now all Hope of Hill is Abandoned. What A Difference From Two Years ago. Chairman Taubeneck is Serene and Confident. It is Only a Question of Fair Elections. The Revolution Has Come to Stay.

(Special to THE CAUCASIAN.)

WASHINGTON, Oct. 20, '94.

"Without New York the House is gone. Without New York "the solid South" is no more. All—the next House, the next President—all hangs on a Democratic triumph in New York in November. Democratic defeat in New York means disaster to the party in every State in the Union. New York is the keystone of the arch. Without New York there are no campaign funds. Machine politics finds its greatest triumph in New York." As directed by the congressional committee in Washington, New York has been the basis of the congressional campaign in all the States, "all depends upon New York" is Faulkner's reply to applications for assistance."

TO ILLUSTRATE.

"Now, said Faulkner, here is a matter in North Carolina that demands immediate consideration. We understand the emergency. But what can we do? I've made three trips to New York and the result is that Tammany candidate, Strous, has withdrawn because of the utter hopelessness of the situation in New York City. And without the city vote there is not a glimmer of hope. With the party split into fragments in New York our hands are tied. We are making no figures on North Carolina. The loss of two Senators in that State would be a calamity, and we are doing our utmost to prevent it.

VERIFIED ASSERTIONS.

From the outset your correspondent has insisted that Ransom is the pivot of the campaign; that it is directed solely with a view to his re-election as an administration Senator. A small Republican majority and a strong Populist minority in the next House is certain. Democratic control of the Senate is now the one hope of the Democratic situation.

IN NORTH CAROLINA.

The committee will be content with a bare majority of the delegation. It is particularly concerned in the election of Henderson, Shaw, Woodard, Branch and Lockhart on Ransoms account. Henderson, Woodard and Lockhart are avowed Ransom adherents, and Shaw, it is understood, will be controlled by Simmons. If the skies brighten in New York these districts will be "assisted" by the Congressional Committee on the home stretch.

GLOOM, GLOOM, GLOOM.

When THE CAUCASIAN correspondent called at Democratic headquarters to-day all was gloom and glum. Faulkner was "tired." "No change in the situation" he said, "but the darkest hour is before the dawn." Laurance Gardner, the big, fat secretary, looked gloom, after talking over the phone with the Central National Bank about some "committee paper." It was an off day on Democratic news. Correspondents were hardly treated with common politeness to-day nothing about the usual "hospitalities."

RAINBOWS AND SUNSHINE.

At Republican headquarters on "the Hill" it was all rainbows and sunshine, congratulations over the New York outlook and bouyant hopes of the general results. Secretary McKee, is a walking, talking, thinking encyclopedia of political information. He has figured out 190 Republicans as the result of the coming election. The south is not included in the calulation. In explanation McKee said, "we are not intering in the south. Not that we are not deeply interested, but the solid south is working out

ITS OWN SALVATION.

It is only a question of fair elections. The revolution is in progress that will solve the problem. It is better so. The reports from North Carolina and Virginia make us feel like shouting. But then there is the count. It is with Democratic election officials to say what it shall be. A full vote and a fair count in November would turn the State over to the Populists and Republicans. Not a single Democrat would be elected to the next congress. Such a result would have

NATIONAL SIGNIFICANCE.

It would change the political domination of the Senate. It would not surprise us to see a big landslide in North Carolina. We have looked confidently since 1892 for the rainbow that now hangs over the Tar Heel State. There is greater activity in the State than in any campaign since 1884. Altogether it looks as if North Carolina might pioneer the movement of disintegration in the southern States." McKee is a Virginian bern and a cosmopolitan by adoption.

AT POPULIST HEADQUARTERS

Chairman Taubeneck was up to eyes in work. "We are not boasting" he said, "about results, but if there are not 40 or 50 Populists in the next House then all human calculations are worthless. We shall hold the balance of power in the Senate and expect to recognize that body next March, but we are not in the prediction business. The outlook is entirely satisfactory from the Populist standpoint. We have only the most encouraging news from North Carolina. Look out for surprises all along the line." The number of prominent men all over the country who have recently declared for the People's party has put people to looking upon it as the coming party. Its growth has surpassed and astonished all the old time politicians.

WALTER A. MONTGOMERY.

Hon. W. A. Montgomery has been placed on our ticket for Justice of the Supreme Court. He was born February 17th 1845 in Warrenton, N. C., where he has lived all his life, except two and a half years in Memphis, Tenn., and about two years in Raleigh where he now resides. He was licensed to practice law in the County Courts in January 1867, and in the Superior Courts in January following. He has always been a successful lawyer, and when in Warrenton, probably had as large and lucrative practice as any lawyer in North Carolina outside of the large towns. And yet his practice has been free from corporate employment. He is a gentlemen of culture, widely read in history and literature, in philosophy and the principles of government. He served throughout the war with a musket in his hands except the last year when he was a Lieutenant. He surrendered at Appomattox. Now he goes before him in honoring and ...ing the Confederate Soldier. He never ceases to praise their valor and patriotism, their patriotism and self sacrifice. Reflection has brought him to the conclusion however that the war was a mistake on the part of the South; for he believes with all his soul in a republican form of government, and that it is safer to trust the people with their affairs than a few of them.

He abhors oppression and tyranny, religious and political with his whole heart. With the exception of having voted for a part of an independent ticket while in Memphis, he has always voted a straighout Democratic ticket up to this time. It is now, however, but just to him to say that he is not in accord with the methods of the leaders of the Democratic party, nor with their tariff and financial policy. He has always favored a free ballot and a fair count and condemns the present election methods of the Democratic machine.

He is a man of good habits and unimpeachable character, and of such sympathy with the great struggling mass of his fellow citizens that a high office will not puff him up or cause him to forget their common brotherhood.

No attempt will be made by honest men to impeach his integrity or ability to fill the office for which we have nominated him.

THE SHIPP FRAUD COMMISSION.

Back in the dark days of '68 and '70 there were some dark and corrupt transactions in this State. Both Democrats and Republicans were in the steal. The whole matter was investigated and the evidence published in the Shipp Fraud Commission. The Democratic politicians who were in the dark transactions have burned every one of these books they could get.

We have been trying for 6 months to get a copy and have just succeeded.

We find that Col. Sam Tate, the present State Treasurer, and candidate for re-election, figures prominently in the ugly transactions. The evidence seems to show that he was in a number of corrupt transactions. Maj. J. W. Wilson, present chairman of the R. R. Commission, testified that Col. Tate made propositions to him which he could not accept or consider because he considered them corrupt. Matt Ransom was the Attorney for the gang who were robbing the State.

We did not get the book till we were ready to go to press. We will make extracts from it next week. It shows one thing certain that Col. Tate is not a fit man to be State Treasurer. His hands are not clean. He smells high in the dark record of the fraud commission of 1871.

"TO WORK! TO WORK!!"

The Charlotte Observer in a long editorial headed "to work, to work!" appealed to the people to rally around the standard of the Democratic machine. He closes with these words.

"All that has been built up in twenty years is now threatened with being torn down. To work! To work!!"

What is it that The Observer fears that the People's party, with the help of the majority of the voters in the State, will tear down?

First, The Observer fears that the county government infamy which puts as ruler over each county a set of men who are not the choice of the county, which bills up a machine in each county that is responsible to nobody but the State machine: and therefore the subservant tool of the State machine, will be torn down, and a just representative and Democratic system of home rule will put in its stead.

The Observer fears this above all other things, for without this undemocratic system the State machine could no longer stifle the will of the people. In fact the machine could no longer live; the life of the odious and intolerant machine is at stake, and of course the machine is fighting for life.

If the machine lives and rules, the people have no political life, they have no voice, they have no influence in the management of their own home affairs. They can simply vote to register the will of the machine, or be disfranchised for daring to think for themselves.

The People's party will tear down the "bull pens" at the voting places, and let every citizen cast one free ballot in the broad expanse of God's sunlight where all can see. It will then give the people a chance to choose county commissioners of their own choice, men who will be responsible to the people of their county, and therefore who will administer the affairs of their county justly to all, or else feel at once the crushing weight of pulic disapproval. We will have for commissioners men who will not make a political machine of the public school system; and the men who are appointed Registrars of election will have a due regard for the duties of that important office, men who will assist all voters to comply with the law; we will have commissioners who will appoint for Judges of the election such men to represent the different parties as will be satifactory to each party concerned.

When the People's party has torn down the bearier to civil liberties, this curse to a free people, this blot on the fair name of North Carolina, it will then begin the work of building up, it will commence the work of construction and development where the Alliance legislature of 1892 left off.

It will proceed to equalize taxation still further.

It will extend the public school system until there shall be at least a four months school term in every neighborhood in North Carolina.

It will put interest on money down to six per cent.

It will undo, if it could, the crime of the last legislature in selling out the interest of the State to a large railroad corporation of northern men which has been bleading the State and taking their surplus wealth elsewhere to invest and evade taxation.

It would tote fair with every corporation, whether it was a farmer's corporation or a railroad corporation, and it would never sneakingly try to repeal their charters without giving them a hearing.

It would elect two United States Senators, neither of whom would ever be connected with a sugar scandal, neither of whom would favor refunding the debt of the Pacific Railroad, neither of whom would vote to re-charter the infamous banking system, neither of whom would vote to contract the currency, neither of whom would vote $100,000,000 bonds for the Nicaragua canal scheme (the "keynote of the Democratic campaign"); neither of whom would sit idly by while a goldbug President made an issue of $50,000,000 of gold-interest bearing bonds, neither of whom would sell out his vote for public patronage, neither of whom would vote for gambling bills, but both of whom would vote to undo all of these infamous laws, and to give the people relief.

These are some of the good things that such a legislature would do, and there are others, but we will not mention them now. There are certain corporations that ought to be made to tote fair with all people, but if we were to name them now they would at once contribute to the Democratic campaign fund, as the whiskey trust, the sugar trust and bond-holders did in order that their interest might be looked after by the Democrats. No, we will not mention them now, but every household in North Carolina will applaud when the legislature takes hold of them and brings them to terms as they did when the Alliance legislature passed the railroad commission and proceeded to collect back taxes for 1891.

Yes, if the Democratic machine is beaten, as it must and will be, not only will all of these be done, but the State at the same time will be blessed with a non-partisan Judiciary. You will have a Supreme Court that will be composed of the best men of the different parties You will have half of your Supreme Court Democrats and the other half of the best men of different parties. You will have a Court that would be fairer and juster to all parties and interest. It is very dangerous to have a Court composed of one party. Evils are certain to grow up under a partisan Judciary and the evils will grow worse each year.

These are some of the things that every reformer has at stake in this fight. November the 6th will be an eventful day for North Carolina. It is a fight between the people and the machine. Which shall win? It it a fight between intolerant and fraudulent machine rule on the one hand, and the independent and free manhood of the masses on the other hand. It is a fight between an irresponsible despotism bottomed on fraud, and a true Democracy based on the free approval of the voters of North Carolina. You are fighting for your life, and the machine is fighting for its life. Everything that is dear to the people is at stake. Let us crush the machine and save the State. To work! To work!!

Only two weeks till the election. Let us be up and doing. We have the votes. Watch Democratic boodle and Democratic thieves. See that our votes are cast and see that they are counted.

WHAT IS THE MOTIVE?

The Democratic machine howls about the danger of the colored man getting into power. If a colored man is competent to be a Judge of the election and sit to adjudge the suffrage of the citizens of North Carolina, then he is fit to hold any office in any county. There is no civil right that is dearer to every man than his vote. The Democratic machine which has kept itself in power by howling "negro domination" has deliberately and purposely appointed colored men for judges of the election at every voting place where they intend to cheat. As a rule they have appointed either ignorant colored men, men who can not read or write, or they have appointed colored men who were not wanted even by the bulk of their own race. Intelligent and competent men were recommended by the People's party and the Republican party for every voting place in the State. But they would not appoint them. There was no law which forced the Democratic commissioners to do this. There was no "force bill" that compelled them to act in such an unwise and unjust manner. They certainly were prompted by some motive that was not patriotic or honest. The motive was theft. They acted under instructions from the machine. It is necessary to rape the ballot box and steal the suffrages of the people to keep the Democratic machine in power. Is there one honest man in North Carolina who will endorse such methods? Down with such thieves and perjuries. You can not trust such men to manage your public affairs.

The list of Democratic speakers published in the daily papers makes nearly two columns in type. Where does the money come from to pay all of the speakers? We suppose the sugar trust, whiskey trust, and gold trust are footing the bills. Those who contribute money for campaign purposes are those who have been benefitted by the party or those who expect to get special benefits; besides the railroads in this State have always contributed to the Democratic fund. The railroads contributed money to help elect Democratic judges, to help elect Democratic legislatures, to help elect Democratic governors and to help elect Democratic United States Senators. If the Democratic party wins, these corporations will take care of them but the people are not in it.

The statement made by Ransom and other Democratic speakers that the income tax will yield a revenue of $50,000,000 is false. According to Secretary Carlisle's letter advising the Senate not to pass the free sugar tariff bill, the income tax cannot be relied upon to produce more than $15,000,000, and even that will not be paid for several months yet. That was the estimate also of the Chief of the Treasury Bureau of Statistics. It is also estimated that the cost of collection will consume about one-half of the tax. The September deficit in the treasury was nearly $9,000,000, and the estimated October deficit is $11,000,000. It is another $50,000,000 bond issue or a panic. This is Democratic rule. Vote for a change.

Mr. Milton C. Richardson of the Clinton bar has been nominated for Solicitor in the 6th District and Mr. Wm. J. Leary Sr., of the Edenton bar has been nominated for Solicitor in the 1st District. Both of these gentlemen voted the Democratic ticket two years ago. They are now ardent Populists.

Pou says it is only a question of majority now. The size of it depends upon the count. 40,000 majority is suggested. By this calculation the Republican and Populist tickets are conceded about 20,000 of the 100,000 colored tax-payers vote. Make it safe Mr. Pou and steal the entire colored vote.

High tariff has not cured hard times, low tariff has not cured hard times. Times are now worse than ever. The real cause is the want of money. John Sherman and Matt Ransom are guilty of making money scarcer. Give the country more money and we will have good times, tariff or no tariff.

MR. MONTGOMERY WILL SERVE.

He Believes in a Non-partisan Judiciary And Will Serve the People Irrespective of Party.

RALEIGH, N. C., Oct. 22, '94.

TO THE PUBLIC:

The office of a Judge, in North Carolina, is to construe the laws of the people as recognized and enacted by them through their legislative representatives. A Judge is in no sense a maker of laws, but simply an expounder of them. The tests of his fitness for the office ought to be uprightness of purpose, a strong sense of justice with kindness of disposition, a good acquaintance with the law, application to business and firmness of character in the discharge of duty Other qualities than these are often encumbrances. I have entertained and expressed these views for many years.

If a majority of the people think me qualified for so responsible a position and vote for me, and I should be delared elected one of the Justices of our Supreme Court, I would feel obliged to them for their confidence and good will and serve the State and its whole people with the best of my powers.

Walter A. Montgomery.

MR. MILLICAN WITHDRAWS.

He Will not Allow his Name to be Used by Traitors to Help the Democratic Machine. He Will Support Mr. Stroud for Congress.

To the voters of the Fourth Congressional District:

The peculiar condition of affairs in this, the Fourth Congressional District, a condition which I have hitherto misunderstood and of which I was unaware at the time I accepted the nomination for congress imperatively demands that I make this further and final statement regarding my candidacy, The dictate of honor, honest methods in poliets as well as the maintenance of my own integrity and the integrity of thousands of honest incorruptiable Republicans in the fourth district who are ready and anxious to support me with unswerving devotion for the cause and principles which I represent constrain me to say that I cannot allow my candidacy to be used by selfish politicians as a shield behind which to fight a movement which every honest man must hope will result in lifting from the necks of the citizens of the State that Democratic yoke of oppression, a debauched suffrage, and I now after a thorough investigation withdraw from the contest. In taking this action I do not abate "jot or little" of my devotion to the cause which I have all my life espoused and which I shall always uphold and advocate so long as the Republican party continues to be as it certainly is now the great conservator of good government, both State and National. But I am unwilling that the spotless living of Republicanism should be stolen and worn by any man in the service of the Democracy, nor am I willing for it ever to appear that such is the case. The number of Republicans to which this aspersion can apply is so small, their political characters so well known, and their objects and methods so apparant that no honest, sincere supporter of mine need take offence, still it is of such character as to give color to the charge that I am about to permit disguising men to conjure with my candidacy to farther the interest of the Democratic nominee, and I will not for another day allow myself to stand in a position where I may be suspected or misunderstood. This if no other is sufficient justification for my course, but I wish to add that the methods used in this campaign to promote the interest of the Democratic nominee of this district are of so questionable a character as to leave no question as to the proper course for every Republican who believes in honest elections to pursue. Republicans of the fourth district let us for once stand united for the dignity and honor of our State uniting with others in one mighty effort to rescue the ballot box from the clutches of the common enemy of civil liberty.

To the thousands of loyal Republicans of this district who will doubtless feel some disappointment at my withdrawal let me say that you have my sincere and heartfelt thanks for your kind intentions and my assurance of deep regret to recent development that make it impossible for me to accept your kindly proffered support. T. C. Millican.

POLITICS IN LENOIR.

The Populists Have Large Crowds at Their Appointments. The Democrats Have no Crowds at all. Lenoir is Solid for Reform.

KINSTON, N. C., Oct. 23.

The Reform movement is steadily gaining ground in Lenoir. The county candidates are met by large crowds who give close attention to what is said, The Democrats have not had a respectable audience at any of their appointments.

Capt. Kitchin spoke here yesterday to a large crowd in the court house. His speech was well received and did much good for our cause.

The Democrats had an appointment in Neuse township on the 18th and the Democratic chairman gave notice of a large meeting in the court house at Kinston that night. Many boys were busy distributing posters. At the appointed hour no one was present but the chairman of the Democratic party and a small number of kids. The meeting dissolved at once, the lights were put out and no speaker attended.

Failing to get any one to attend this meeting the Democrats got the clown of the circus to make a Democratic speech from the ring to the crowd at the show. Lenoir is solid for reform.

SAMPSON COUNTY PLEASED.

Richardson Will get a Big Vote in This County--Prominent Business Men Come to the People's Party.

CLINTON, N. C., Aug. 24, Editor CAUCASIAN.—The county is delighted with the nomination of Mr. M. C. Richardson for Solicitor. Sampson will give him a big majority. Capt. C. Partrick a prominent merchant of Clinton, and who has been county commissioner for a number of years has declared for the People's party. We are gaining daily. X.

FREE SILVER IN THE WESTERN COUNTIES.

UNLIMITED COINAGE AT SIXTEEN TO ONE THE PARAMOUNT QUESTION WEST OF "THE RIDGE."

12 OF THE 16 COUNTIES IN THE 9TH CONGRESSIONAL DISTRICT WILL ELECT UNCONDITIONAL ANTI-MACHINE CANDIDATES TO THE LEGISLATURE.

Deep Resentment and Indignation Among the People at the Interference of Revenue Officers in County Politics.---They Cannot Swallow Ransom.---Revolt and Rebellion Against the Machine.---In the Congressional Fight Pearson is a "Mixer" and an "Easy Winner."---Crawford is Pitiful in His Attempts to "Explain" the "Alliance Demand Card."---A Landslide Predicted.---News that Will Encourage and Enthuse the Reformer.

(Special Cor. to THE CAUCASIAN.)

ASHEVILLE, Oct. 16.

The fact that the revenue officeholders have packed the conventions in the western counties and nominated Ransom candidates for the legislature, has made the impression that the silver question does not cut any figure in the campaign. It is a great mistake. The very reverse is the fact. It is

THE PARAMOUNT QUESTION.

The most ultra free coinage advocaters in the State may be found in these counties. The candidate who does not unconditionally declare in favor of silver's complete restoration as money has no show of election. This sentiment is the result of Mr. Richmond Pearson's agitation of the question. He has thoroughly inoculated the people with free silver and from all that can be gathered in the way of news from different counties in the 9th district he will reap the fruits of it in his election to congress. But little notice has been taken of the campaign in the 9th district except to

MISREPRESENT PEARSON.

Democrat papers report Crawford's daily triumphs, but those who have heard the discussion don't talk that way. My own opinion is radically the other way. Crawford is an able campaigner and is perfecty at home in the mountains, but he staggers under the load he is carrying. He has created no enthusiasm whatever and finds little sympathy in the daily ding dong repetition about the tariff. Pearson has him on the defensive and nearly has entire speech is in defense. Pearson is not so strong on the stump as Crawford, but he handles himself with great skill. As a "mixer" it is said, that he has no equal. He talks free silver, low wages and hard times. Money is almost unknown in the backcounties. There is no currency in circulation, tobacco is selling at 6 cents a pound; idle mines, low wages, and unemployed labor is the

DISTRESSING CONDITION

of affairs in this section of the State. These people constitute Mr. Pearson's daily audiences and they hear him with deep interest. The indications at this time all point one way. McDowell and Haywood are the only two counties claimed for Crawford with any confidence. In McDowell there is great dissatisfaction which will reduce Crawford's vote largely. The contest in this county is close. Both sides claim it. Pearson has made a close poll of the county and claims it by 250 majority. There are elements in the fight that strongly sustain Pearson's claim. The Democratic legislative ticket is unpopular.

STEADMAN AND CRAIG

are Asheville lawyers and are hardly known in the county. Maj. Steadman has lived here only a short time and 'tis charged that his nomination is the result of a trade in Senatorial "futures." He has money and will spend it liberally to re-elect Ransom with the understanding that Ransom will return the favor when Vance's successor is elected in 1896. Craig is an ultra free trader, free silver and single tax man, but wears Ransom's revenue collar and if elected will vote for Ransom. On that account he is a weak candidate. Besides he is no match at all for Mr. Moody's stalwart blows. Moody is a powerful man physically, and a splendid campaigner. He is a typical mountaineer in the most agreeable and interesting personality. He sledge hammers Craig and the Democratic party to the point of creating pity. The Senatorial district is close. Moody is a popular Haywood county Republican, and Haywood is much stirred up over the office holders interference in county polities. The disaffection will be seen in the stay-at-home vote. Mr. Moody is very confident. His running mate, Rev. Dr Ammons, is a worthy and popular Buncombe man and a leading Populist, and the combination, it is believed, will win.

THROUGHOUT THE DISTRICT

the outlook is assurring for a decisive anti-machine victory. In 1892 the Populist vote was only 1181, but unless all appearances are misleading the vote in November will not fall short of 4,000. And the gain comes chiefly from the Democratic party. It is a genuine free silver conversion. Ten out of the sixteen counties elected Republicans to the Legislature in 1886. The offensive intermeddling of revenue office holders has created intense feeling and resentment throughout the district. The entire revenue gang comprising several hundred active men, has been zealously at work in every county in the district in Ransom's interest. Conventions have been packed and nominations dictated in defiance of public sentiment, and against the protest of influential and leading Democrats. This will tell mightily on election day, and unless all one hears and hears straight, is false, there will be a landslide in the 9th district. I shall be surprised, after a dispassionate survey of the situation, if 12 out of the 16 counties in the district does not elect Republican and Populist candidates to the Legislature. The indications are that a full Republican vote will be polled. The party is solidified, enthusiastic and confidence. The People's party is gaining daily. Watch the Western Counties.

J. L. B.

HOW IT GOES.

Our Speakers Have Big crowds Everywhere--The People's Party Gaining Daily--Our congressional Candidates Doing Fine Work.

The Democratic speakers everywhere have small crowds, the People's party speakers have big crowds. Our boys are enthusiastic, the old machine can not get any enthusiasm.

HON. W. A. GUTHRIE

has done splendid work in the East. He now goes to the West till the end of the campaign. He is not only a magnificent and captivating speaker, but he is a fine looking man, and we regret that we have not a cut of him.

COL. HARRY SKINNER

Is making a very brilliant campaign in the 1st district. He is probably the most eloquent speaker in North Carolina His election is conceded by many Democrats.

HON. W. H. KITCHEN.

"Buck" Kitchen has swept everything before him. He is strong, forcible and convincing. Ransom and Jarvis put together have not had as many people to hear them as Kitchen.

HON. W. F. STROUD,

The nominee of the People's party for Congress in the 4th district, is winning votes daily. He is a good farmer, and is a typical country gentleman.

DR. CYRUS THOMPSON,

The People's party nominee for Congress in the 3rd district, is a telling campaigner, He is a buzz saw. The more opposition he meets the finer he speaks. He is captivating the crowds everywhere. He is sure of election.

In the 8th district R. Z. Linny is making the fire fly from Bower every day.

We hear good reports from Dr. Merritt in the fifth.

Dr. Freeman the nominee in the 2nd is just starting on the campaign.

In the 9th district Hon. Richard Pearson and Mr. Crawford, are having a very hot campaign. Pearson has the best chance of election. He is using his influence in favor of our nominees for the Legislature, and this will give him the almost solid Populist and Republican vote.

REV. C. H. MARTIN,

The People's party nominee for Congress in the 6th district, is making a splendid campaign. His district is gaining as rapidly as any district in the State.

HON. A. C. SHEFORD,

The nominee in the 7th district, is making votes daily. He is a rising young man, and stands a good chance of beating Henderson.

Our candidates for Solicitors are also doing fine work. The county and Legislative candidates are just starting into the field. They will make votes daily. Let every one work day and night till Nov. 6th, and we will carry the State.

The Democratic papers have been trying to explain the great loss of the party in Georgia by saying that the Democrats did not vote—that it was a light vote &c. But the official returns just published shows that it was the heaviest vote ever cast in Georgia. The explanation is that the Democrats voted the People's party ticket.

Do you want more money in circulation? If so, vote the People's party ticket.

Butler vs. Simmons.

Continued from first page.

forth its principles without the advice of Mr. Simmons, it has defended them against all comers without the help of, but in spite of Mr Simmons and his kind, and we can and will continue to do so. The People's party knows what it wants and it knows how to get it. Can you get reform in the ranks of the Democratic party? No. Can you get it in the ranks of the Republican party? Yes, if we had an honest election the voice of the people could rule. Then the first duty of every reformer is to break down this bearrier in the way of the sovereign will of the people. The first thing is to break down and tear up by the roots this accused machinery by which a handful of ringsters and blood suckers rob and disfranchise the people at the ballot box. If the ballot box is not pure, if the sanctuary of the peoples liberties is corrupted and befouled, then every sacred personal and property right is in danger. Such rottenness at the fountain spring of your government, will soon spread to the business man's counter, to the homes of our people, to even the pulpit till our whole social and business fabric is tainted and corrupted. A man who will keep a free citizen from casting his ballot after it is cast, who will swear to false returns, is the most dangerous criminal today running at large. Even the machine that he steals for cannot trust him. He is a moral leper; he is more dangerous to society than the anarchist with his bomb or the felon with his mid-night torch. Any party or two parties that can break this crime, that can root out this dangerous poison, will do North Carolina and the whole south as great a service as George Washington did in the revolutionary war. It must be done. If the Republicans were guilty of this crime we would co-operate with the Democrats to break it up. Get this curse out of the way and then if the principles of the People's party cannot grow, if they cannot reach the heart and intellect of a majority of the voters of the State, then it ought to die. If the People's party ever triumphs it must do it by the honest votes of a free people, and if it ever does it shall die at the same hands. But it shall not die at the hands of a lot of criminals and perjurers. It shall not be cheated by thugs, tools, and hirelings of Wall Street. We co-operate not to sacrince our principles, but to SAVE THEM.

The Baptist and the Methodists have different principles, but they co-operate at any time to fight a common enemy to christianity, to put down a wrong which both condemn. Let us try to be as wise and patriotic as the churches. All people who are opposed to sin must join to fight sin. It would be criminal to divide.

WHEN REPUBLICANS AND DEMOCRATS HAVE CO-OPERATED.

My friends did you know that nearly every great reform has been accomplished by co-operation, and that nearly every great crime and conspiracy against humanity has been accomplished by the co-operation of the enemies of the people. Co-operation is a power. When silver was struck down in 1873 it was done by the co-operation of the goldbugs in the Democratic party and the goldbugs in the Republican party. Thos. F. Bayard (who was then Senator, who has since been in Cleveland's Cabinet and who is now Cleveland's Embassador to England, and John Sherman were the two leading conspirators in the co-operation. When the National Banking act was re enacted in 1882, it was done by the co-operation of the tools of monopoly in both the old parties. Senator Ransom co-operated with John Sherman to do it. When silver was struck down in 1893 it was done by co-operation, again Ransom and Sherman headed the conspiracy.

These are some of the great crimes against good government which could not have been accomplished except by co-operation When the Force Bill was before congress, it was defeated by Senator Stewart and other reformers co operating with all the men in the Senate they could find who would oppose it. This is one of the good things already done by co-operation. If the friends of good government want to beat the enemies of good government they must do more co-operating than they have.

In this county those who are opposed to this Democratic State ring, this Democratic county ring, this Democratic township ring which has not only corrupted your ballot boxes, but which has put the hand of partisan politics on your schools and churches, have decided to co-operate for reform. Did anybody order you to do it? No. Each side met in separate conventions looked the matter square in the face. You looked at the evils around us, you worked for a remedy. Your hearts and your consciences said we must have co-operation. Who have you put up to make the fight? In this county you have nominated Dr. J. E. Person and Mr. H. L. Grant for the Legislature. They are both able, upright, pure and honorable men. Do they agree on all questions? No. Do they agree on wiping out the very wrongs and establishing the very reforms that you are contending for in this State? They do. Then will not every honest man who wants these reforms vote for them? (voices in the audience, "yes! yes!") Can you hope for any of these reforms by voting for a machine Matt Ransom Democrat? (no no!

TAXATION TOO HIGH IN NORTH CAROLINA.

He says that they have lowered taxation in North carolina. This is not true. Listen fellow citizens and I will tell you how it is They have put the rate of taxation down low, but they have at the same time raised the valuation of your property. Suppose you had been paying 25 cents on the hundred dollars worth of property and then the Legislature lowers the rate to 20 cents on the hundred, yet at the same time raise the valuation on that hundred dollars worth of property to $1.50. Then you would pay 30 cents tax instead of 25 cents on the same property. Do you see? This was one of Jarvis schemes. How do you like that kind of reduction?

I am today paying more tax on the same property than I was five years ago. This is a fact, I know it and you know it, and they cannot fool us about it. Besides your land would bring less today than it would five years ago, yet this good Democratic State government makes you pay more taxes on it. Five years ago I paid $15.00 taxes. Then cotton was selling for 12 cents a pound. I could then take a bale of cotton to town, sell it for $60.00, go to the Sheriff, pay my taxes and have $45.00 left. Today this good Democratic government makes me pay more than $15.00 on the same property while the property will bring less. But suppose my taxes had not been increased, and I still paid $15.00 on the same property now. Let us see how I would stand: I take a bale of cotton to town and sell it at 6 cents. It brings me $30.00 just half of what it brought me when I sold cotton for 12 cents. I go to the Sheriff and pay $15.00 taxes. How much money have I got left? Only $15.00, it took half of my bale of cotton to pay my taxes. Five years ago, it took only one-fourth of my bale of cotton. So after I pay my taxes I am $30.00 worse off than I was five years ago, and $40.00 worse off than I was ten years ago when Cleveland was first made President.

There must be more money put into circulation or taxes must be put lower. I had rather pay the 82 cents tax we paid under Republican rule in North Carolina than to pay the taxes that we now pay under this good (?) Democratic rule. You were better off, had more money, paid your taxes and had more money left then than you have now. There was more money then, cotton was selling at from 15 to 20 cents a pound and you had good easy times. My friends, the way everything is selling your taxes are too high.

What are your taxes used for? A large part of it goes to pay the salaries of the officers in this State. Who holds the offices? The Democratic ring. They draw the same salaries though your cotton brings only half as much. I believe in everybody standing on the same footing. If you were to cut down their salaries as cotton falls in price, you would soon hear a calamity howl from the State ring. The State ring would then be in favor of more money. The State ring then would help you change this legislation to make your products sell higher. How can you cut down their salaries? By voting to beat the Democratic machine. Vote for a People's party Legislature. This Legislature would teach the State ring a lesson. You would then have no more good ones in office. They would all then join hands with you to put more money in circulation. Will you do it? (Yes! Yes! from hundreds of voices.)

When Mr. Butler sat down there was loud and prolonged applause.

[I made full notes on both speeches I am able to give Mr. Butler's speech almost in full, for he had prepared full notes on the Democratic Hand-Book, knowing that Mr. Simmons will make his speech from it. When the discussion was over Mr. Butler gave me his notes.—P. J.]

Good news comes from Minnesota. The Washington Post says that news comes to Democratic headquarters that three Republicans in that State are going to the People's party for every Democrat that goes over. If the Democrats can get any consolation out of this they are welcome to it. In the mean time the People's party is growing daily and gaining from both old parties.

Good news comes from California. The Washington Post says that it now looks like the People's party will carry the city of San Francisco, and if it does that it will carry the State.

Do you want the public schools to run four months each year? If so, vote the People's party ticket.

Do you want to see taxes lower? If so, vote the People's party ticket.

MR. LEARY ACCEPTS.

A Strong Statement of His Political Views—He Believes in a Free Ballot and Fair Account and Stands On All the People's party State Platform.

Edenton, N. C., Oct. 22nd 1894.

To the voters of the First Judicial District of North Carolina:—It has been my pleasure to accept the nomination of the People's party, and that of the Republican party, for the high and responsible office of Solicitor, of your District. As I have not now the time to canvass the District, I have concluded to give an expression of my political opinions on the Current questions of the day by this address, so that I might not sail under false impression, as to where I stand. I have never been a red hot partisan, but have been conservative in my opinions, and my acts have corresponded with them. I have always endevored to be fair and just to those who differed with me, as to political creeds. Some of my warmest friends have been thrown out of both the old political parties, and I sincerely trust that I shall retain them, as no man has a single friend to lose. In the matter of currency, I believe, that we have not enough money in circulation to transact the business of the country, and that the present hard times are mainly due to this cause, that is, we are suffering from a contracted currency. We have only $26.50 per capita, when we should have at least $40.00 per capita. The French people are more prosperous, and build up their wasted Treasury faster than any other people on the face of this globe, and I believe, this is mainly due to the large amount of money in circulation among them. Both gold and silver should be in circulation upon a proper ratio, supplemented by treasury notes, limited to the demands of the business done in the country. Not, however, to the extent of depreciation. The telegraph lines should be under the control of the National Government. The utility of this has been fully demonstrated by the English Government, at a great saving to the people. As to governmental control of the railroads, I am not prepared to express an opinion, but I am advised, that both the states of North Carolina, and Georgia have had experience, which would warrant the careful consideration of this proposition. I believe in education, as one of the chief bulwarks of our social fabric, and of our free institutions. We should therefore, foster our common schools, and make them as near perfection as possible. I believe in just laws, which will not discriminate against the poor man, the farmer, or laboring man, but will give them an equal chance in the battles of life, with the capitalist and the rich men of the country. I do not believe in monoplies, or trusts, the natural out-come of which, will be to the disadvantage of our people, whether protected by state, or national government. I am opposed to class legislation whether for the benefit of a few fishermen, or for any any other purpose.

I believe in a graduated income tax, so that the burdens of taxation may fall upon the rich man, as well as the poor man. This is just and fair, for then the capitalist does not escape paying his part of the governmental expenses, incurred for his protection, in common with the other citizens of the country. There has been admitted, within the last twelve months, three million dollars in cotton, in direct comptition, with our chief product, while iron, coal &c are protected, and cotton is King no longer; which creates the impression of the unfairness and inequality of our new tariff law to say the least.

I have implicit confidence, and faith in our American Instutions, and believe that they should be maintained in their pristine integrity and vigor, and therefore believe that under national legislation only eligible emigrants should be admitted, and all nihilists, and other like characters should be rigidly excluded not only from citizenship but from our territory. Every citizen should be, not only permitted to cast his ballot unmolested, but all true and loyal men should see to it that his vote is fairly and properly counted. I appreciate the fact that many honorable men, who would not in ordinary buisness transactions take undue advantage, or cheat their neighbor, will not hesitate, to say the least, wink at election frauds, and encourage those who do commit them, knowing full well that our state and national lite depends upon the purity of the ballot box; therefore it seems to me all high minded and honorable men should do all they can to promote farmers in elections, and that a free ballot and a fair count should be inscribed upon the banner of every citizen, who loves his country, with true patriotism in his hart. Now my fellow citizens I have given you as briefly as possible my opinions in a political way, and ask you to support me in the coming election. If elected, as I firmly believe I will be, I shall ad the office without fear or favor, and perform its duties faithfully. I leave the matter entirely with you, with entire confidence that I shall be your next Solicitor.

SIMMONS SECRET CIRCULAR.

RALEIGH, N. C., Sept. 23, 1892.

Sir:—I call your attention to the accompanying letter of Attorney General Davidson:

The Registrars must open their books, and give proper notice of so doing, on the 28th of September, and close them at 12 o'clock noon on Saturday 29th day of October.

According to the decision of the Supreme Court it is the duty of the Registrar to read to each Elector, before he registers the enquiries at the head of each column of the registration book, and he may record the voter's answer in the words in which he gives it, or he may make the voter correct his answer, or give his statement more specifically. The act is declared mandatory in the opinion referred to (Harris vs. Scarboro, 110 N. C. Reports) and therefore the registration is unlawful if the elector fails to state "his age, occupation, place of residence of the Elector, as well as the township or county from whence the elector has removed—in the event of a removal—and the full (Christian and sir-name) by which the voter is known."

In answer to the three questions, viz: Place of residence, place of birth, and place from which voter has removed, in case of removal, the Court holds that it is not sufficient to enter simply the name of the State, but the name of the county at least must be entered. Where the Registrar fail two years ago to enter the age, occupation, place of birth, and place of residence of an Elector, as well as the township or county whence the Elector has removed, in the event of a removal, and the full name of which the voter is known, the Elector still has the privilege of any blank, or correcting any mistake.

I deem it unnecessary to call your attention to the importance of seeing that every Democrat is properly registered, and all registered, two years ago who were not properly registered, to have the necessary corrections in such registration made.

You will please notify each Registrar in your county promptly, not only of the day of opening and hour of closing the registration books, but take early occasion to see each one personally, and give him full instructions as to his duty. No more important duty devolves upon you in this campaign.

THIS IS A CONFIDENTIAL COMMUNICATION and only intended to be special instructions for your guidance. Yours truly,

F. M. SIMMONS, Chairman.

All over the country prominent men are coming to the People's party. Only the other day ex-Senator Tournbull, who was four years ago the Democratic nominee for Governor of Illinois and who was 18 years in the U. S. Senate declared for the People's party. Since then other prominent men in Chicago have come to the party of equal rights to all and special privileges to none. A number of prominent men in the west have followed Senator Jones in declaring for the People's party.

Mr. Thad Ivey who has been nominated for the Senate in Wake by the Prohibition party, has withdrawn and is out in a card calling upon all members of his party to vote the People's party ticket. He draws a striking contrast between the deportment and habits of the People's party and the Democratic nominees in that county.

It takes 4 1-2 bales of cotton now to buy as much money as one bale brought in 1870.
This tells the story of the contraction of the currency.
Matt Ransom and John Sherman "co-operated" with the goldbugs to do it.

We received yesterday a copy of an anonymous circular. It attacks many prominent men in the Peoples Party and does some down right lying. This circular is being sent through the mails. We expect it is being sent all over the State. The cowardly scoundrel who wrote it does not sign his name. It is low, it is mean, it is sneaking. It is a stab in the dark. The letter containing the circular was post marked in Raleigh and addressed to a farmer at a country office. Democrats are getting very low when they stoop to such low, cowardly and contemptable methods.

Every man should take one or more newspapers. If there is a better paper in the State than THE CAUCASIAN, then you should subscribe for it. If not, then you must take and read THE CAUCASIAN. It only cost $1.00 a year.

We favor the running of the public schools of our State at least four months in each year as required by our constitution for both races, in order that the blessings of education may be extended to all the people of our State alike.—People's Party State Platform.

Read the joint discussion between Butler and Simmons in this issue. Mr. Simmons made the same speech that all the Democratic speakers are making. Therefore Mr. Butler's speech is an answer te every Democratic speech that has been made in this campaign.

OUR CARTOONS.

The Caucasian Artist Does Fine Work for This Issue.

We have two large telling cartoons in this issue. Our artist has never done better.

THE DEMOCRATIC "BULL PEN"

This cartoon tells its story graphicaly and vididly. It shows the conspiracy that the Democratic machine has laid to rape the ballot box. Why has the county commissioners appointed for judges of the election colored men who can not read or write, colored men who are known by their own race as "Democratic niggers." This is done for a purpose. Of course it is necessary for the Democratic judges of the election to commit perjury to carry out their plans, but this is a small matter to some men as was shown two years ago. No party can live that is forced to such methods.

WHAT A GOLD STANDARD HAS DONE

The money crop of the south is cotton. It is the main crop, that our people depend on to bring money into the south. Our artist shows that it takes 4½ bales now to bring as much money into the south as it did in 1870. In 1873 silver was struck down by the Republicans with the cooperation of the Democrats. From that hour cotton begun to go down in price.

In 1893 silver was again struck down by the Democrats with the cooperation of the Republicans. And what has happened? Cotton has fallen to the lowest point in thirty years. The National banks and the killing of silver has been the chief curses to bring these hard times. Matt Ransom by his votes in the U. S. Senate has helped to bring this ruin upon the south.

Office of
J. F. GREER,
COUNTY JUDGE.
GREEN COVE SPRINGS, CLAY CO., FLA., May 23d, 1891.

Gentlemen:

Twenty-three years ago I was attacked with inflamatory rheumatism, I was attended by the most eminent physicians in the land. I visited the great Saratoga Springs, N. Y., and the noted Hot Springs of Arkansas, and many other watering places, and always consulting with the local physician for directions; finally came to Florida ten years ago.

About two years ago I had a severe attack of rheumatism, was confined to my room for twelve weeks and during the time I was induced to try P. P. P., [Prickley Ash, Poke Root and Potassium], knowing that each ingredient was good for impurities of the blood, after using two small bottles I was relieved; at four different times since I have had slight attacks and I have each time taken two small bottles of P. P. P., and I consider it the best medicine of its kind.

Respectfully,
J. F. GREER.

RHEUMATISM.

Is emphatically a blood disorder caused by inability of the kidneys to throw of certain poisons which accumulate in the tissues about the joints and muscles.

P. P. P., very simple, quickly and surely cures this disease neutralizing impurities in the blood. Experience and science both endorse P. P. P., as the only infallible blood purifier known.

THOMPSON, SPEARS AMD SHAW AT CLINTON.

Thompson the Happy Victor.

CLINTON, N. C., Oct. 21.

The Third Congressional District candidates, Messrs Thomson, Spears and Shaw addressed a crowd of about five hundred voters at Clinton last Wednesday. A division of time was agreed upon, giving each speaker one and one quarter hours with a rejoinder of fifteen minutes each. Mr. Spears spoke first, representing his side as well we supposeas it could be represented. Dr. Thompson followed Spears and discussed national issues on a high plane. Never have we heard the truth so earnestly and forcibly stated. Dr. Thompson is a man of the people, good natured, open, clever, with a stainless personal record, and the possessor of considerable personal magnetism.

The scene was that of a talented, high toned christian gentleman speaking earnestly and feelingly to an earnest and suffering people. Earnest because they are seeking the truth (and they heard it gladly) and suffering because of unjust class legislation placed on the Statutes by the Republican party and kept there by the Democratic party. Members of all parties heard him with an earnestness which has never before been depicted on the faces of the people at a political gathering. Dr. Thompson took for the basis of his argument: "Is there need for a Third party." His arraignment of the two old parties was simply grand and unimpeachable. All well meaning, honest self-thinking men must have been convinced that if our prosperity and our liberties mean any thing that there is need, and a present and pressing need for a Third party.

Mr. Shaw followed Dr. Thompson and succeeded admirably in making a perfect dolt of himself. Instead of discussing the issues, or else admit that he was incapable of defending the treacherous and traitorous record of his party, Mr. Shaw went to slinging mud and trying to defend his questionable character. The exhibition he made of himself must have been very humiliating to every Democrat present unless it was the handful of boys who cheered when he would say "Maryann" and who doubtless prefered gush to decent argument. The most indiscreet thing Mr. Shaw did was to bring up the Fayetteville matter, at which place it was proven by a very respectable witness that he had a hand in committing fraud on the ballot in his county. This matter would not have been brought out by Dr. Thompson if Mr. Shaw had left it alone. But it seems that his conscience was giving him trouble and from the "fulness of the heart the mouth speaketh." Mr. Shaw produced certificates from parties in Fayetteville to try to prove an alibi. In his rejoinder Dr. Thompson read from a Republican and a Democratic paper published at Fayetteville that such accusation was prefered against Mr. Shaw and that a witness was called to the stand to prove it, which he did. Mr. Shaw answered Dr. Thompson in the affirmative when asked if the editors of the two papers from which he was reading were not honorable men. If Mr. Shaw evenly denied the charge on his own responsibility we failed to hear it. Mr. Shaw could not have done other than injure his already doomed party by his speech here last Wednesday. Dr. Thompson opened his rejoinder in a good humoredly way and stated that he had too much respect for the crowd to reply to Mr. Shaw in a speech on as low a plane as was that of his opponent. The gentle but stinging rebuke that Mr. Shaw and his party received at the hands of Dr. Thompson is unparalleled. A charge that Shaw made on Thompson that he had written and posted a paper at the court house in Onslow in 1892 stating that he would support the county Democratic ticket and afterwards would not do it, was brought up. Mr. Shaw proved this charge by one R. O. Whitaker. In answer to this charge Dr. Thompson made a proposition to Shaw that he and Whitaker were in error, but if they could prove that such was so, he would publish a card over his own signature that he (Thompson) had lied. But, on the other hand, if it could be proven that the charge was false, that Shaw and Whitaker would publish a card stating that they had lied. On this proposition, which was certainly fair, Dr. Thompson offered to shake hands with Shaw. But shame on him, Mr. Shaw cowared and refused to shake. This is only another example of the cowardly and contemptible canvass Mr. Shaw is making.

At some of the appointments Dr. Thompson is being congratulated by Democrats for his open and clean canvass and his gentlemanly bearing, while they openly condemn Shaw. As a natural consequence of such a canvass Thompson is gaining votes while Shaw is steadily losing. Dr. Thompson will make the people a bold and fearless representative in congress and will at all times maintain the reputation of the noble, patriotic christian gentleman that he is. Who can afford to vote against such a man.

Confidential Communication.

[Continued from First Page.]

communication Sept. 23rd, 1892, is republished in this connection for the information of voters and election officials. Great vigilance on the part of election officials in discovering fraud and improper registration is vitally necessary. In the opinion of the committee a majority of 40,000 will meet the present exigency but it will take herculean efforts to accomplish this result. It is safer to calculate on a wide margin as there will be less danger of securing too small returns. The campaign has been conducted on a high plane, every federal office holder in the State has done, and is doing his duty nobly. It is charged by the enemy that the campaign is conducted in the interest of Senator Ransom's re-election. We are not in a position to deny it, but the least said about the matter the better. Side issues should not be allowed to disturb Democratic harmony. The main thing and the only thing in the fight is to win. The apathy of the people is noticed with a deep and painful regret, but we are reluctant to accept it as an indication of popular disapproval. However our chief reliance now "is on a fair count." All we can say in conclusion is to urge our poll holders and county canvassing boards to follow party precedent in this matter and leave the consequences to party managers. P. O. U.

ADDENDA.

We commend our judicial ticket to all Democratic voters as now constituted, the majority of the Supreme Court, is an indispensible part of the State's election machinery. A partisan law without a partisan court to interpret it would be practically valueless. The distinguished Judge, Hon. A. C. Avery, who prepared and delivered the opinion in Garriss vs. Scarboro, and who afterwards rendered invaluable service to the State committee, will be a prominent candidate before the Legislature for election to the United States Senate. It is due his eminent services in the campaign of 1892—when a grave crisis confronted the party—that the judicial ticket should be enthusiastically supported.

N. B. Another matter of prime importance which prudential reasons was not adverted to by the committee in its public address, is the railroad question. Democratic policy was settled years ago in the sale of the Western North Carolina R. R. and emphasied later in the beneficient disposition in the Cape Fear & Yadkin Valley road. The Western road was transferred to a foreign capitalist without money, and this magnificient property costing the State millions of dollars, is now owned and operated by a New York syndicate. The Cape Fear & Yadkin Valley road projected as a North Carolina enterprise and surrendered by the State to North Carolinians without pecuniary consideration, has passed into the hands of a receiver and beyond the jurisdiction of our State courts.

The mortgagees are New York and English capitalists, and it is only a question of time when this distinctively North Carolina enterprise will have passed under foreign control. A question of the present however—and it is momentously important—s the disposition to be made of the North Carolina R. R.

The lease of the Richmond & Danville R. R., now the Southern Railway, expires in 1900. What immediate consideration will be given the proposition to extend it is not known at this time, but the fact that over 80 railroad attorneys have been nominated for the Legislature is significant.

The Democratic party cannot afford to alienate the railroad influence. It has been a faithful attorney and promised still greater influence in the future. A distinguished Vice President of the Great Southern system, Col. A. B. Andrews, is an eminent North Carolinian. A loyal Democrat and a libreal Campaign contributor. We must rely upon the railroad commission to protect the robber freight rates and monoplistic oppression. The creation of the commission was bitterly opposed at the behest of the R. R. but the mistake which came so near being a fatal blender has been atoned by vigorous administracion of the law by Democratic Commissioners. We can now point to it proudly as a Democratic acheivement. Talk these matters purately when explanations may be necessary to remove disaffection and restore harmony.

The fight on Senator Jarvis on the Wilmington and Weldon R. R. back taxes has been suppressed in the interest of harmony until after the election and his friends who constitute the bulk of reform Democrats should exercise the same patriotism and forbearance. P.

A COMPLETE ANSWER TO EVERY DEMOCRATIC SPEECH.

In another column will be found a report of a joint discussion between Hon. F. M. Simmons and Mr. Marion Butler. Mr. Simmons' speech was taken from the Democratic Hand Book. It is about the same speech that the Democratic speakers have been making all over the State. Read Mr. Butlers reply to Mr. Simmons and you will have a complete answer to every Democratic speech that has been made. Put a copy of this joint discussion in the hands of every voter, and if he wants to know the truth and will act on the truth it will convert him. It will make him vote the People's party ticket.

GAINS VS. LOSSES.

Our Democratic friends have tried to make it appear that they are gaining votes in this State and elsewhere. So far they have only named eight men in this State who have deserted the People's party, and several of these named have little or no influence. Not one of them have more than neighborhood reputation. The same is true of the country at large. On the other hand the People's party has gained tens of thousands of voters, as the elections held already show. Hundreds of these are men of county and State influence, while dozens of them are men of national reputation, men of great ability and character. We will mention a few, each having a national reputation, all having held high positions of honor and trust in both State and nation. We could go back twelve months and name many more, but will only include those coming over in the past 60 days:

Judge James K. Hines, of Georgia, Democrat—was nominated by the People's party for Governor soon after he announced his defection from the Democratic party and came near carrying the State, or perhaps did carry it.

Hon. S. Maxwell, Judge of Supreme Court, Nebraka, Republican, joined the People's party seven weeks ago.

Hon. J. H. Reagans, Democratic candidate for Governor, Texas withdrew from the contest because he couldn't stomach the platform, and, it is believed, will vote the People's party ticket on the 6th of November, though he has not so announced.

Hon. John Z. White, a prominent Democrat of Chicago, and advanced reformer, joined the People's party six weeks ago, and has since been nominated for Congress.

Senator John P. Jones, Republican, who has been in the U. S. Senate from Nevada for several years, and who has made a world-wide reputation, having been on a number of the most important committees, joined the People's party five weeks ago.

President Eugene V. Debs, of the American Railway Union, Democrat, not only joined the People's party, but brings more than 70,000 voters with him.

Henry D. Loyd, a wealthy and prominent Democrat, Chicago, joined the People's party three weeks ago.

Ex-Senator and ex-Judge Lyman Trumbull, Democrat, of Chicago, joined the People's party two weeks ago.

A member of the Ohio Democratic State Executive Committee and the Chairman of the Colorado State Republican Executive Committee, whose names we do not recall, are recent recruits.

In addition, we might name dozens of editors, some of them influential, and hundreds of others of more or less prominence. The election returns from the States where elections have not been held, will tell the balance of the story. Let the great work go on.—Progressive Farmer.

NOTICE! NOTICE!!

The law requires that the legislative officers shall all be voted for on ONE BALLOT. The candidate for the House of Representatives in each county, when having his tickets printed should see that the names of the candidate (or candidates if there is more than one Senator in his district) are printed on the same ticket. We have received several orders to print tickets for the candidates for the House. The names and counties of the candidates for the Senate should be sent with every such order so they can be printed on one ballot.

Carteret county is in the 8th Senatorial district, therefore the legislative ticket for that county should be as follows:

For the Senate, Eight District,
JAMES M. MEWBORN,
of Lenoir county.
EDWARD L. FRANCK,
of Onslow county.
For the House of Representatives:
EDWARD C. DUNCAN.

Now Jones is in the same Senatorial district, therefore the legislative ticket for Jones county should be:

For the Senate, Eight District:
JAMES M. MEWBORN,
of Lenoir county.
EDWARD L. FRANCK,
of Onslow county.
For House of Representatives:
HENRY FRANK BROWN.

The Chairman of the People's party committee or the nominee for the House should look after this matter in every county. Be sure to have enough tickets printed.

Send THE CAUCASIAN your orders for Election Tickets. See prices in another column.

LAND SALE.

On Monday, October 29, 1894, at 11 o'clock at Arrington's Corner in Rocky Mount, N. C., we will sell at public auction the Home place of S. E. Westry, in Stoney Creek township, Nash County, joining the lands of W. R. Winstead, Robert Barnes and others and containing about 3,100 acres.

The tract will be cut up to suit purchasers in 100 and 200 acre lots. The land is well suitable for tobacco. This is a fine opportunity for a man to buy a home. Tract also contains much fine timber. Terms of sale easy and made known at sale.

Skin Cancer Cured.

Testimony from the Mayor of Sequin, Tex.

SEQUIN, TEX., January 14, 1893.
MESSRS. LIPPMAN BROS., Savannah, Ga.: *Gentlemen*—I have tried your P. P. P. for a disease of the skin, usually known as skin cancer, of thirty years' standing, and found great relief; it purifies the blood and removes all irritation from the seat of the disease and prevents any spreading of the sores. I have taken five or six bottles and feel confident that another course will effect a cure. It has also relieved me from indigestion and stomach troubles. Yours truly,
CAPT. W. M. RUST,
Attorney at Law.

Springfield, Mo., Aug. 14th, 1893.
"I can speak in the highest terms of your medicine from my own personal knowledge. I was affected with heart disease, pleurisy and rheumatism for 35 years, was treated by the very best physicians and spent hundreds of dollars, tried every known remedy without finding relief. I have only taken one bottle of your P. P. P., and can cheerfully say it has done me more good than anything I have ever taken. I can recommend your medicine to all sufferers of the above diseases.

JUDGE WALTER CLARK
USES AND ENDORSES THE
Electropoise
TRADE MARK.
"Cures when all else fails."

North Carolina Supreme Court.
WALTER CLARK, Associate Justice.
RALEIGH, N. C., Jan. 26, 1894.
We have found the Electropoise very valuable—especially for children. I got one last May, and I am sure I have saved three times its cost already in doctors' and drug store bills. From my experience with it, and observation, I can safely recommend it.
Yours truly,
WALTER CLARK.

STEEL RANGES.

These Ranges are the most complete, convenient and durable apparatus that has ever been invented. It is manufactured out of malleable iron and cold rolled wrought steel, consequently it will stand heat and hard usage without the slightest danger of breakage. For baking they cannot be excelled, as the oven is air tight and the fires circulated all around it, heating all sides equally; it also has a governor whereby the heat can be regulated so as to bake quick or slow.

Below are a few of the many testimonials of some of the best citizens of South Carolina, Florida and this State.

TESTIMONIALS:

Goldsboro, N. C., Sept. 8, '94.
We, the undersigned citizens, most cheerfully recommend our Home Comfort Steel Range, which are undoubtedly the most durable stoves that have ever been sold here. They are models of neatness and convenience, use very little fuel, draw splendidly, heat quickly, but throw out very little heat in the room; supply an abundance of hot water, and are the quickest and most perfect bakers we ever saw.

Bennettsville, S. C.,
December 1, '93.
We, the undersigned citizens of Marlboro county, each bought one of the Wrought Iron Ranges sold here ten years ago, and have just replaced them with a New Home Comfort Steel Range, which from their construction and the material used, we feel confident will last three times as long as the old ones, and besides they have many more conveniences:

Thos. Adams, W. B. Odom, Peter T. Smith, George Ballard, S. R. Barrington, Mrs. Lucy Goodwin, A. B. Covington, J. H. Smith, Harris Odom, Eli Chavis, King Odom, Eliab Chavis.

We are using a Home Comfort Steel Range and find it to be all that is claimed for it by its salesmen. It bakes perfectly, require less wood, and does everything in a more satisfactory manner than any range or stove we have ever seen. We think it well worth the price paid for it.

TO SAVE MONEY

When you need Surveying, get the best Surveyor the country affords. When you intrust your surveying to a man, you intrust the counting of your cash to his care—if he is incompetent to do the work correctly, you loose your property through his failure to correctly compute it for you.

I offer my services to the public, embracing an experience of EIGHTEEN YEARS as a SURVEYOR and guarantee the best possible results under all conditions, and in consideration of the financial stringency, reduce my fee to $3.00 per day, instead of $4.00 as heretofore, when paid cash. Will survey in any section of the State.
